

PEPSIN, NUX, IRON
AND SARSAPARILLA

A Magnificent Combination—Finest
Course of Medicine

Physicians and pharmacists have long known the desirability of combining iron—a superlative tonic—in a blood-purifying, building-up medicine.

The combination of the iron with Hood's Sarsaparilla has now been secured through the happy thought of prescribing Pepsin Pills to be taken in connection with the Sarsaparilla—one before eating, the other after.

In this way the two medicines work together most harmoniously and beneficially, supplementing each other, and giving a four-fold result in blood-cleansing and rebuilding.

You get blood-purifying, appetite-giving, liver-stimulating qualities in Hood's Sarsaparilla and great tonic properties in Pepsin Pills.

Buy these remedies to-day.—Adv.

Coal Prices Soar.

Boston, Oct. 3.—The price of soft coal at retail was advanced 50 cents a ton by local dealers yesterday. The new price will be \$6 a ton as compared with \$4.40 a year ago.

CHILD'S TONGUE
BECOMES COATED
IF CONSTIPATED

When Cross, Feverish and Sick, Give
"California Syrup of
Figs"

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half sick, feverish, doesn't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach ache or diarrhea. Listen, mother. See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs," because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

BOSTON TO GET
FIRST 2 GAMES

If Present World's Series
Plans Prove Ac-
ceptable

FIRST GAME
FRIDAY, OCT. 6

Likely That First Clash Will
Be at the Braves' Field

New York, Oct. 2.—It appears almost certain that the opening game of the world's series will be played at Braves field in Boston beginning Oct. 6 or 7.

The suggestion has been made to the national commission that the usual formality of tossing a coin for the privilege of staging the initial contests be dispensed with this season and the first two games awarded to the Boston Americans.

The suggestion is put forward by the officials of the latter and in all probability will be adopted by the commission if acceptable to the National league club owners, who are considering the proposition.

The Boston American league club authorities have said that they have arranged to play their games at Braves field and that park, with its seating capacity for 44,000 spectators, is ready for the opening games, while neither the Brooklyn nor Philadelphia National league club is justified, in view of the closeness of the National league pennant race, in installing additional stands and boxes until it is settled which of the two clubs will meet the winner of the American league pennant.

If the first two games are played in Boston, the National league pennant winning club will have between four and five days in which to prepare additional seating accommodations for the fans and since both the Brooklyn and Philadelphia parks are comparatively small, the loss of a Saturday game will make little difference in the receipts, as the teams will play to capacity on any day of the week.

If the plan is adopted, as it appears likely, it may be then the opening game will be played on Friday, Oct. 6, in order to permit the shift after the first two games to be made between Saturday and Monday morning.

TWO LONG YEARS IS GETTING
HE SUFFERED
MILK ENOUGH

"Fruit-a-tives" Made Him Feel
As If Walking On Air

ORILLIA, Nov. 28th, 1914.

"For over two years, I was troubled with Constipation, Drowsiness, Lack of Appetite and Headaches. One day I saw your sign which read 'Fruit-a-tives make you feel like walking on air.' This appealed to me, so I decided to try a box. In a very short time, I began to feel better, and now I feel fine. I have a good appetite, relish everything I eat, and the Headaches are gone entirely. I recommend this pleasant fruit medicine to all my friends."

But Boston Cannot Long
Continue to Do So,
Says Pattee

NO SHORTAGE
FOR SOME TIME

Contractors Do Not Look
for Any for Some
Time to Come

Boston, Oct. 3.—Although milk producers and contractors were at odds yesterday as to the price to be paid for milk at wholesale, consumers in this city and environs who have been paying 10 cents a quart, found no shortage in the supply.

Representatives of the dealers asserted that the supply coming into the city was normal, and in this statement Richard Pattee of Lacombe, N. H., secretary of the New England Milk Producers' association agreed.

But Mr. Pattee, who is directing the fight of the farmers for increased prices, from headquarters here, contended that the normal conditions were only temporary.

"The supply is being kept up by calling on reserve stocks and this involves the use of old milk, which may be within the standard," he said. "The supply may last for several days, but it is sure to fall off."

"I have just received word from southern Vermont that four cars usually loaded with milk are held up."

"Between Bellows Falls and Rutland, where a certain car is usually filled, the farmers sold only 15 to 20 cans. Reports from Maine and New Hampshire indicate unexpected solidarity among the producers to hold their milk for what we consider a fair price, 50 cents for an eight and a half quart can."

Secretary Pattee said nothing had come to his attention to indicate any connection between the situation in New York, somewhat similar to that in this city, and that affecting the Boston market.

"It would cost as much as we ask, if not more, to tap the sources of New York supply for the Boston market, or vice versa," he said. "Milk can be sold in this city without pasteurization or other process, although New York requires that all milk sold there be submitted to such treatment."

Contractors' officials yesterday said they were receiving as much milk as usual, and that customers were not likely to feel a shortage for sometime.

FOOD SOURING IN
STOMACH CAUSES
INDIGESTION, GAS

"Pape's Diapiesin" Ends All Stomach
Distress in Five Min-
utes

Wonder what upset your stomach— which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapiesin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women to-day know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion, if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapiesin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests foods and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.—Adv.

BASEBALL BRIEFS

The Columbus club has turned Pitcher Fred Bailey back to Cleveland and the Indians will carry him until he can be placed again.

Witt of the Athletics is batting for an average of .242 in 138 games. Up to Sunday Strunk was the only man who had played in more games this season than Witt. McNis was a close third, having played in 135. Witt stands fifth on the team in his batting.

Many thought last spring that the trading of Tris Speaker would lose the pennant for the Red Sox, but the winning of this race, which has been one of the hardest in the history of the game, goes to show that one man does not make a ball club.

Beals Becker, the former Giant player, won the batting honors in the American association with an average of .340. Clemens of St. Paul being the runner-up with an average of .329.

In an answer to a query in one of the New York sporting columns as to the best all-around player in the majors today, George Sisler of the Browns was given the preference. Sisler has demonstrated his ability this summer by pitching, playing third base, second base, first base and in the outfield.

The latest official batting averages go to show that Tris Speaker has now actually outdistanced the great Cobb of the Detroit Tigers. After leading the American league for nine consecutive years, Cobb did not lose his crown to a younger man than he, as Speaker is three years his senior. Tris had quite a majority. In 147 games, the former cowpuncher from Texas hit for .285, against .261 for Cobb in 142 games. Cobb's average would have been a comfortable margin in the National league, where Walter Holke's batting leads the league, he hitting for .344 in 28 games.

The Chicago Cubs ended their season at the Chicago park Sunday in a most fitting way, by rapping out three home runs.

In the coming of the 13th world's series, there are a number of elements of surpassing interest beyond the present rivalry. There has always been a keen and hard fighting enthusiasm in the work of both teams over this long stretch, with the result being very close. At the first thought one would say that the Amer-

Not a Bite of
Breakfast Until
You Drink Water

Says a glass of hot water and
phosphate prevents illness
and keeps us fit.

Just as coal, when it burns, leaves behind it a certain amount of incombustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomaine-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Remember, inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowels do. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.—Adv.

FUNERAL YESTERDAY.

And Wreath for Mrs. Small from Sus-
pected Husband.

Mountainview, N. H., Oct. 3.—Funeral services for Mrs. Florence A. Small, who was murdered while alone in her home on Thursday night, were held yesterday from the Congregational church at Center Ossipee.

The only floral offering on the coffin was a wreath marked "Love" from Frederick L. Small, husband of the woman.

The Treatment of
Influenza or La Grippe

It is quite refreshing these days to read of a clearly defined treatment for Influenza or La Grippe. In an article in the "Lancet-Clinic," Dr. James Bell, of New York City, says he is convinced that too much medication is both unnecessary and injurious. When called to a case of La Grippe, the patient is usually seen when the fever is present, as the chill which occasionally ushers in the disease, has practically passed away. Dr. Bell then orders that the bowels be opened freely with salts, "Acetids" or citrate of magnesia. For the high fever, severe headache, pain and general soreness, one anti-kamnia tablet every three hours is quickly followed by complete relief. Ask for A-K Tablets. They are also unexcelled for headache, neuralgia and all pains.

FIGHT AFTER
"SLAVE" SALE

One Man Killed, Another Shot Probably
Fatally, in Revolver Battle
at Chicago.

Chicago, Oct. 3.—Five men fought a revolver battle over the "sale" of a woman for \$200 in a suburban resort early yesterday with the result that one of the men was killed and another wounded, probably fatally. Fifty or sixty shots were fired. The slain man was "Peggy" O'Day, a saloon keeper. Daniel Hartman, one of O'Day's companions, was shot through the lungs.

According to the story told the police by Samuel Harris, owner of the resort, Hartman had offered to "sell" him a woman and there had been a dispute over the price. O'Day and Hartman with two associates, all heavily armed, drove up to the place in an automobile and attacked the proprietor and two waiters, Harris said.

Good Public Service
and
the Men Back of the Service

5—The Office

An office can be merely what the dictionary calls it, "a place for the transaction of business", but there are few which do not reflect the personality and ideals of the concerns occupying them.

Our office is under the direction of E. A. Harris, Office-Manager, and through his efforts and the cordial co-operation of his associates we believe that it reflects the spirit of courtesy, fair dealing and efficiency which is our constant aim.

All matters pertaining to customers' accounts may be taken up with Mr. Harris with the assurance that he will gladly give them his personal attention and will immediately rectify any errors on our part which may occur.

Our office is more than an office—it is a place where we meet our customers in a spirit of courtesy and good-will.

You are always welcome.

Montpelier & Barre Light & Power Company

World Series!

City Hall, Montpelier, Vt.

Watch the Ball!

The Baseball Play-O-Graph
(PATENTED)

The game reproduced in all its details as actually played on the ball field. A real BALL thrown to all parts of the field, showing the runner out or safe at the bases. Fouls, fly balls, wild throws, etc., a dozen different plays, all shown as originally made.

The Play-O-Graph is the same machine as used last year in the City Hall and is the originator of and the only successful exponent of the moving ball.

It always plays the game as it is and shows no catch-the-eye fakes.

It enjoys the national reputation as the standard of excellence from the Atlantic to the Pacific.
